## Chantal Dagnaud: named as the new President of ECCO

Paris, France - 03 October 2017 **Chantal Dagnaud was appointed President of ECCO, the European Club of Countertrade and offsets**, a European association that aims to create an international platform to share information and best practices in the field of offsets and countertrade activities.

This nomination follows her implication at ECCO Executive Committee, where she heads, since 2013, the Offsets working group at the World Bank, as well as a joint working group with ICC (International Chamber of Commerce).

From now on, **her role will be to enhance ECCO's visibility at the European and international level, allowing a worldwide reflection on the implementation of good practices** of economic compensation in the framework of international public procurement.

**Chantal Dagnaud assumes the presidency of ECCO Executive Committee for the next 9 months in addition to the management of Institutions & Strategies (I&S)**, a consultancy company specialised in European and international project management, its offer is mainly based on three aspects:

- Linkage & Lobbying
- Legal and Regulatory
- Public Funding (European and international)

I&S works for innovative companies, research centres and local authorities in Europe and abroad.
